REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: in claim 16, lines 2-5,

"wherein the upper layer is present across the entire topography, and an average thickness of the upper layer in a region adjacent to an outer edge of the semiconductor topography is approximately 5% to approximately 30% less than an average thickness of the upper layer in a region comprising a center of the topography,"

cannot be found in the prior art of record. The prior art of record fails to teach, in combination, the process features. Examiner finds the arguments found in pp. 4-6 of the response filed 28 July 2006 convincing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William M. Brewster whose telephone number is 571-272-1854. The examiner can normally be reached on Full Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
